TITLE VIII—MISCELLANEOUS PROVISIONS

Sec. 801. Definitions.
 Sec. 802. Davis-Bacon Act.

1 SEC. 2. FINDINGS AND PURPOSE.

2 (a) FINDINGS.—Congress makes the following find-
 3 ings:

4 (1) Despite significant advances in public
 5 health and health care, the health status of racial
 6 and ethnic minority populations continues to lag be-
 7 hind that of the white population.

8 (2) The United States is becoming increasingly
 9 diverse. According to the 2000 United States Cen-
 10 sus, African Americans, American Indians and Alas-
 11 ka Natives, Asians, Hispanics, and Native Hawai-
 12 ians and other Pacific Islanders comprise 30 percent

1 of the United States population. Racial and ethnic
2 minorities are expected to comprise 40 percent of
3 the United States population by 2030.

4 (3) To improve the health care of racial and
5 ethnic minorities and to reduce and eliminate dis-
6 parities in health care and health outcomes, the fol-
7 lowing issues must be addressed:

8 (A) NEED FOR INSURANCE COVERAGE.—

9 (i) Disparities in health status can be
10 attributed largely to underlying differences
11 in socioeconomic status and insurance cov-
12 erage. Minorities are at a greater risk of
13 being uninsured than their white counter-
14 parts. Lack of health insurance has con-
15 sistentlly been associated with worse health
16 outcomes.

17 (ii) Even after adjusting for dif-
18 ferences in socioeconomic and insurance
19 status, however, racial and ethnic health
20 and health care disparities remain.

21 (iii) Through treaties and Federal
22 statutes, the Federal Government has es-
23 tablished a trust responsibility to provide
24 health care to American Indians and Alas-
25 ka Natives. In the Indian Health Amend-

1 ments of 1992, Congress specifically
2 pledged to “assure the highest possible
3 health status for Indians and urban Indi-
4 ans and to provide all resources necessary
5 to effect that policy.” Despite those com-
6 mitments, the unmet health needs of
7 American Indians and Alaska Natives re-
8 main alarmingly severe and their health
9 status is far below the health status of the
10 general population of the United States.
11 The critical shortfall of funding for the In-
12 dian Health Service is a major source of
13 this problem.

14 (B) NEED FOR CULTURALLY AND LINGUIS-
15 TICALLY APPROPRIATE CARE.—

16 (i) Limited English proficiency ad-
17 versely affects the care of many racial and
18 ethnic minority patients. The lack of avail-
19 able interpretation and translation services
20 or bilingual providers contributes to racial
21 and ethnic disparities in health and health
22 care. The Federal Government provides
23 and funds an array of services that should
24 be made accessible to eligible persons who
25 are not proficient in the English language.

1 (ii) Title VI of the Civil Rights Act of
2 1964 (42 U.S.C. 2000d et seq.) prohibits
3 discrimination on the basis of race, color,
4 and national origin in programs and activi-
5 ties receiving Federal financial assistance.
6 Discrimination on the basis of primary lan-
7 guage has consistently been interpreted as
8 discrimination on the basis of national ori-
9 gin.

10 (iii) The provision of effective lan-
11 guage services has been shown to improve
12 care for limited English proficient (re-
13 ferred to in this section as “LEP”) pa-
14 tients by increasing patient satisfaction,
15 access to care, compliance with rec-
16 ommended medical advice, and appropriate
17 utilization.

18 (iv) A 2002 study by the Office of
19 Management and Budget found that lan-
20 guage assistance services can substantially
21 improve the health and quality of life of
22 LEP individuals and their families, in-
23 crease the efficiency of distribution of gov-
24 ernment services to LEP individuals, and

1 measurably increase the effectiveness of
2 public health and safety programs.

3 (v) The same study estimated that
4 language translation services would only
5 increase the cost of the average health care
6 visit by less than one percent.

7 (C) NEED FOR HEALTH WORKFORCE DI-
8 VERSITY.—

9 (i) Research has demonstrated that
10 minority health professionals dramatically
11 increase access to care for minority pa-
12 tients and improve the quality of care that
13 they receive. African Americans, American
14 Indians and Alaska Natives, Hispanics,
15 Native Hawaiians and other Pacific Island-
16 ers, and Southeast Asians are significantly
17 underrepresented in the health professions,
18 exacerbating health disparities.

19 (ii) Minority physicians are more like-
20 ly than white physicians to serve minority
21 populations. Nearly 40 percent of all mi-
22 nority medical school graduates will prac-
23 tice medicine in underserved areas, com-
24 pared to 10 percent of their white col-
25 leagues.

1 (iii) Minorities often report experi-
2 ences with discrimination when seeking
3 health care.

4 (iv) There is substantial evidence to
5 demonstrate that race concordance be-
6 tween physicians and patients increases
7 patient satisfaction and participation in
8 health decisionmaking.

9 (v) Minority health care providers can
10 bridge linguistic, cultural, and other bar-
11 riers that hamper access to care.

12 (vi) African Americans, Hispanics,
13 and American Indians remain severely
14 underrepresented in health professions
15 schools. African Americans and Hispanics
16 constitute 20 percent and 16 percent, re-
17 spectively, of the students in public health
18 and baccalaureate nursing programs, and
19 less than 15 percent of students in all
20 other health professions.

21 (vi) The number of minorities enroll-
22 ing in health professional schools has re-
23 mained stagnant. For example, in 1994,
24 1,307 African American and 1,090 His-
25 panic students enrolled in American med-

1 ical colleges. In 2000, the figures were es-
2 sentially unchanged at 1,307 African
3 American and 1,033 Hispanic students.

4 (D) NEED FOR REDUCTION OF DISEASE
5 OCCURRENCE AND DISEASE-RELATED COM-
6 PLICATIONS AMONG MINORITIES.—

7 (i) Despite notable progress in the
8 overall health of the Nation, there are con-
9 tinuing disparities in the burden of illness
10 and death experienced by minorities com-
11 pared to the United States population as a
12 whole. Minority populations are dispropor-
13 tionately impacted by acute and chronic
14 diseases.

15 (ii) Despite suffering a greater burden
16 of acute and chronic disease, minorities are
17 less likely to receive needed health care.
18 Numerous studies have documented that
19 minorities receive less preventive care,
20 medical therapy, and surgical interven-
21 tions.

22 (E) NEED FOR MINORITY HEALTH DATA
23 COLLECTION AND REPORTING.—

24 (i) Efforts to study disparities in
25 health and health care for minorities have

1 been hampered by the lack of available
2 data on race, ethnicity, and primary lan-
3 guage.

4 (ii) Data collection, analysis, and re-
5 porting by race, ethnicity, and primary lan-
6 guage is permissible under the law and
7 necessary to assure equity and non-
8 discrimination in the quality of health care
9 services. Collection, analysis, and reporting
10 of such data is authorized under Title VI
11 of the Civil Rights Act of 1964 (42 U.S.C.
12 2000d et seq.). Such collection, analysis,
13 and reporting should be conducted with ap-
14 propriate privacy protections in place.

15 (F) NEED FOR GREATER ACCOUNTABILITY
16 IN GOVERNMENT INSTITUTIONS.—A number of
17 studies have shown that differences in health
18 care quality contribute to health disparities
19 among minority populations. These differences
20 may result from bias, stereotyping, and dis-
21 crimination. Government institutions must be
22 held accountable for the quality of healthcare
23 delivered to all patient populations and result-
24 ant health outcomes.

1 (G) NEED FOR STRENGTHENING HEALTH
2 INSTITUTIONS THAT PROVIDE CARE TO MINOR-
3 ITY POPULATIONS.—

4 (i) A small segment of health care in-
5 stitutions provide a disproportionate
6 amount of health care to minority popu-
7 lations.

8 (ii) Safety net institutions, including
9 public hospitals, community health centers
10 and community clinics, provide a dis-
11 proportionate share of health care to mi-
12 nority and underserved populations.

13 (iii) Financial stress, negative oper-
14 ating margins, and the overall burden of
15 caring for the uninsured and delivering
16 high-cost specialty care to the entire com-
17 munity place undue pressure on core safety
18 net providers. These providers are increas-
19 ingly challenged in their ability to meet the
20 day-to-day needs of their patients.

21 (b) PURPOSES.—It is the purpose of this Act to im-
22 prove the health and healthcare of minority populations
23 and to eliminate racial and ethnic disparities in health and
24 healthcare by—

1 (1) increasing access to health care for all pop-
2 ulations;

3 (2) expanding culturally and linguistically ap-
4 propriate health services for all populations;

5 (3) promoting health workforce diversity;

6 (4) supporting and expanding programs and ac-
7 tivities that will improve the prevention, diagnosis,
8 and management of disease in minority populations;

9 (5) enhancing racial, ethnic, and primary lan-
10 guage health data collection at the local, State, and
11 Federal level;

12 (6) ensuring accountability for the quality of
13 health care and health outcomes for minority popu-
14 lations; and

15 (7) strengthening the technical and financial re-
16 sources of the safety net institutions of the United
17 States.

23 effect as of July 16, 1996, but does not exceed the
24 highest effective income or resource level (if any) ap-
25 plicable to a child in the family under this title.

1 “(B) In establishing an income eligibility level for in-
2 dividuals described in this paragraph, a State may vary

5 **ING OF ACTIVITIES TO ELIMINATE RACIAL**
6 **AND ETHNIC HEALTH DISPARITIES.**

7 (a) FINDINGS.—Congress makes the following find-
8 ings:

9 (1) The health status of the American populace
10 is declining and the United States currently ranks
11 below most industrialized nations in health status
12 measured by longevity, sickness, and mortality.

13 (2) Within the spectrum of declining health, ra-
14 cial and ethnic minority populations tend to be in
15 the poorest of health and face substantial cultural,
16 social, and economic barriers to obtaining quality
17 healthcare.

18 (3) The problems affecting minority health have
19 been exacerbated by the fact that adequate resources
20 (funding, staffing, stewardship, and accountability)
21 have not been devoted to initiatives designed to ex-
22 amine and eliminate racial and ethnic disparities in
23 health.

24 (b) SENSE OF CONGRESS.—It is the sense of Con-
25 gress that—

1 (1) funding should be doubled by fiscal year
2 2005 for the National Center for Minority Health
3 Disparities, the Office of Civil Rights in the Depart-
4 ment of Health and Human Services, the National
5 Institute of Nursing Research, and the Office of Mi-
6 nority Health;

7 (2) adequate funding by fiscal year 2005, and
8 subsequent funding increases, should be provided for
9 health professions training programs, the Racial and
10 Ethnic Approaches to Community Health (REACH)
11 at the Center for Disease Control and Prevention,
12 the Minority HIV/AIDS Initiative, and the Excel-
13 lence Centers to Eliminate Ethnic/Racial Disparities
14 (EXCEED) Program at the Agency for Healthcare
15 Research and Quality;

16 (3) current and newly-created health disparity
17 elimination incentives, programs, agencies, and de-
18 partments under this Act (and the amendments
19 made by this Act) should receive adequate staffing
20 and funding by fiscal year 2005; and

21 (4) stewardship and accountability should be
22 provided by Congress and the President for health
23 disparity elimination.

5 following factors:

6 “(i) AT-RISK RURAL HOSPITALS.—In
7 the case of rural hospitals the closure of
8 which within the next year is imminent or
9 the continued operation of which over a 2-

11 tors as the level of health resources avail-
12 able in a community as measured by physi-
13 cian supply, the population base of the
14 area served by the hospital and utilization
15 of services by such population as measured
16 by service area population, and financial
17 indicators predictive of closure.

18 “(ii) RURAL HOSPITALS CRITICAL TO
19 HEALTHCARE ACCESS.—In the case of
20 rural hospitals which provide access to es-
21 sential health services within a service area
22 where no other provider of such essential
23 services exists, such factors as the market
24 share of the hospital for an area or popu-

1 proximity of the next closest provider of
2 such services, and the degree to which the
3 area population is medically underserved.

4 “(2) OWNERSHIP REQUIREMENTS.—In order to
5 be eligible for assistance under this subtitle, a
6 healthcare facility (other than a healthcare facility

17 “(C) be a private nonprofit healthcare fa-
18 cility which has contracted with, or is otherwise
19 funded by, a governmental agency to provide
20 healthcare services to low income individuals

23 enue from such contracts constitute at least 10

8 at least 50 percent of the patients of which are mi-

11 recent cost reporting period) that it meets the cri-
12 teria for general eligibility under this subtitle;
